

KITCHEN

This is where it all started for **KITMO**

3 generations and 55+ years of expertise in designing kitchens.

Our Kitchens combine a mix of simple and natural materials inspired by our Mediterranean roots and suitable for all seasons. A Kitchen that calls for long dinners and endless talks.

They're locally produced in our carpentry workshop and built entirely from scratch.

Designed to be timeless and last for decades.

A Kitchen is about the mood – for that, we have created 3 base models with unique characters. Once the base model is picked, we fit the design based on customer requirements.
