

# FLOORING

800+ projects executed, 40+ design options and over 20+ years of expertise. We specialize in premium quality floors, from natural to our very own signature colors.

Our flooring products and services:

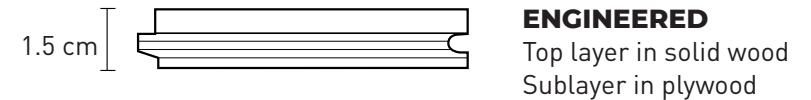

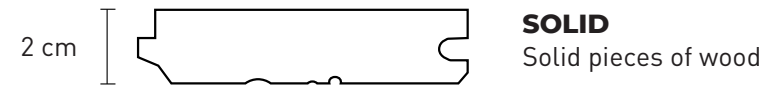

- Wood flooring
- Laminate flooring
- Outdoor decking

## WOOD FLOORING

They're designed in-house and manufactured with our all-time trusted factories (+20 years of partnership). We also custom make floors from scratch right here in our workshop (a door away from our showroom).

Our wood floors are guaranteed for life, they're robust and well protected.

## SPECS OF FLOORS

### ENGINEERED

- Highly stable core that is less likely to expand or contract
- Great option in spaces that are subject to moisture or over floor heating
- Can be sanded and stained multiple times

### SOLID

- Authentic
- Timeless
- Durable
- Expand and contracts which gives it a very natural look and feel
- Can be sanded and stained multiple times

# DESIGN AND INSTALLATION PATTERNS

We are now confident that our design and installation patterns are made to perfection. For the past 20 years, we have been commissioned more than 200 custom patterns.

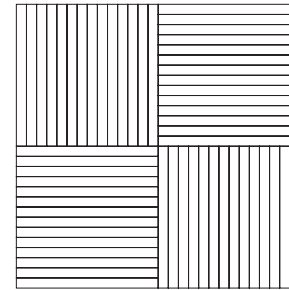

Here are our most common patterns by people's choice. We can always custom your own.

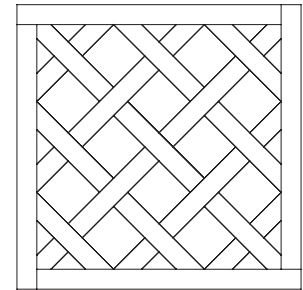

**CHEVRON**

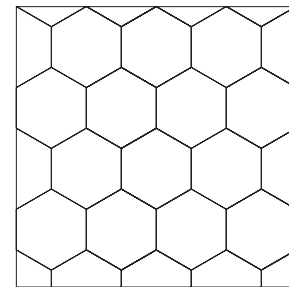

**HERRINGBONE**

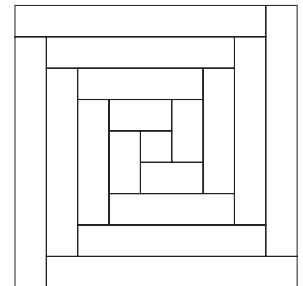

**MOSAIC**

**VERSAILLE**

**HEXAGONE**

**SQUARE**

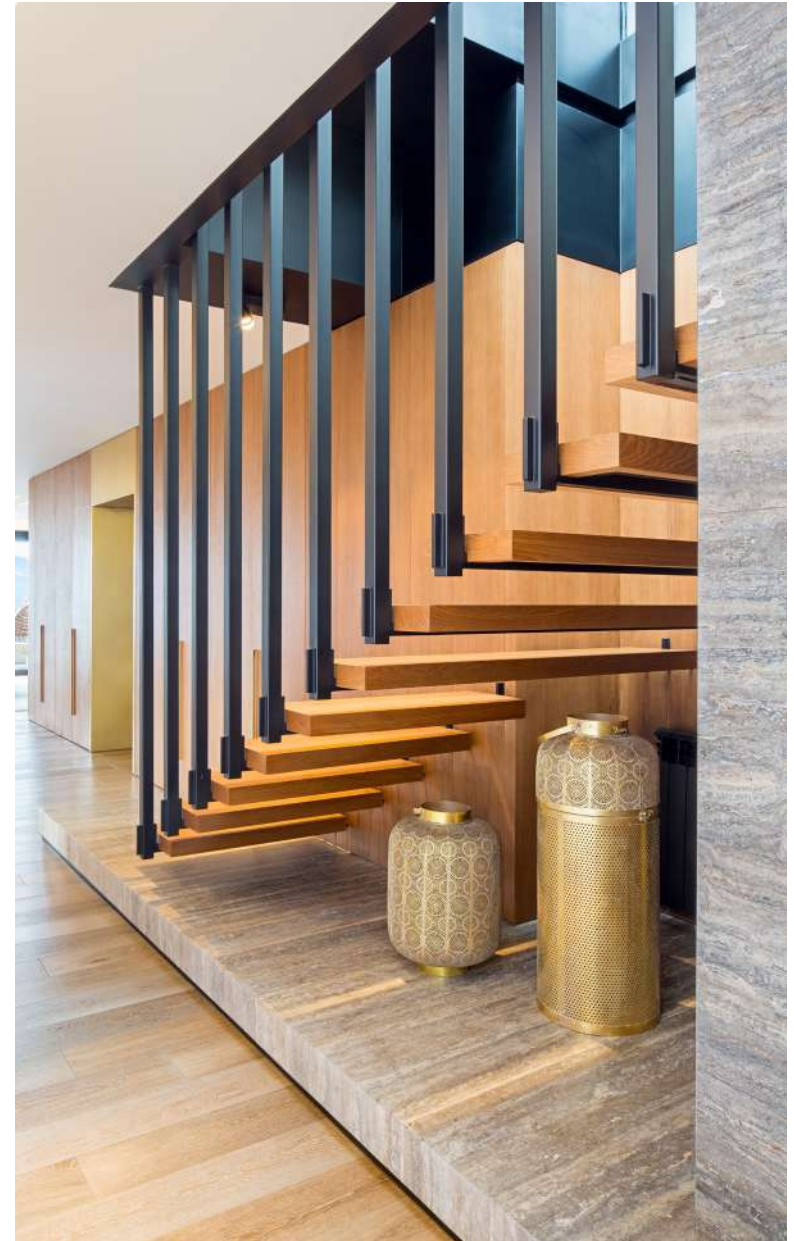

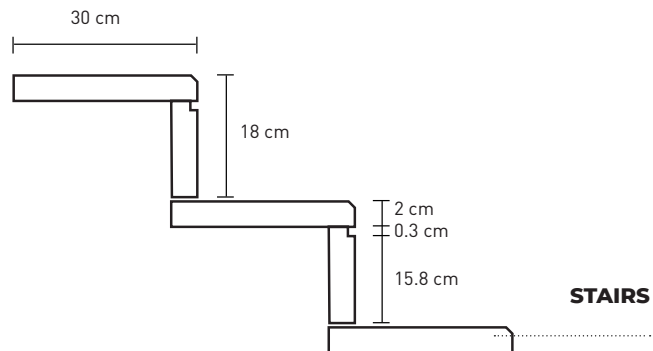

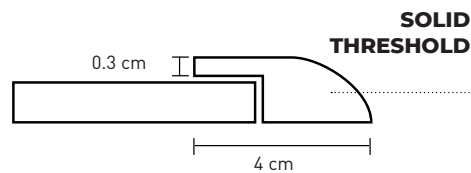

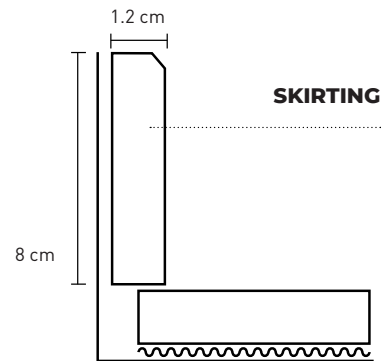

## WOODEN STAIRS, SKIRTINGS THRESHOLD & MORE

We have all the solutions that complete our wood flooring services. They're tailor made in our workshop and upon request.

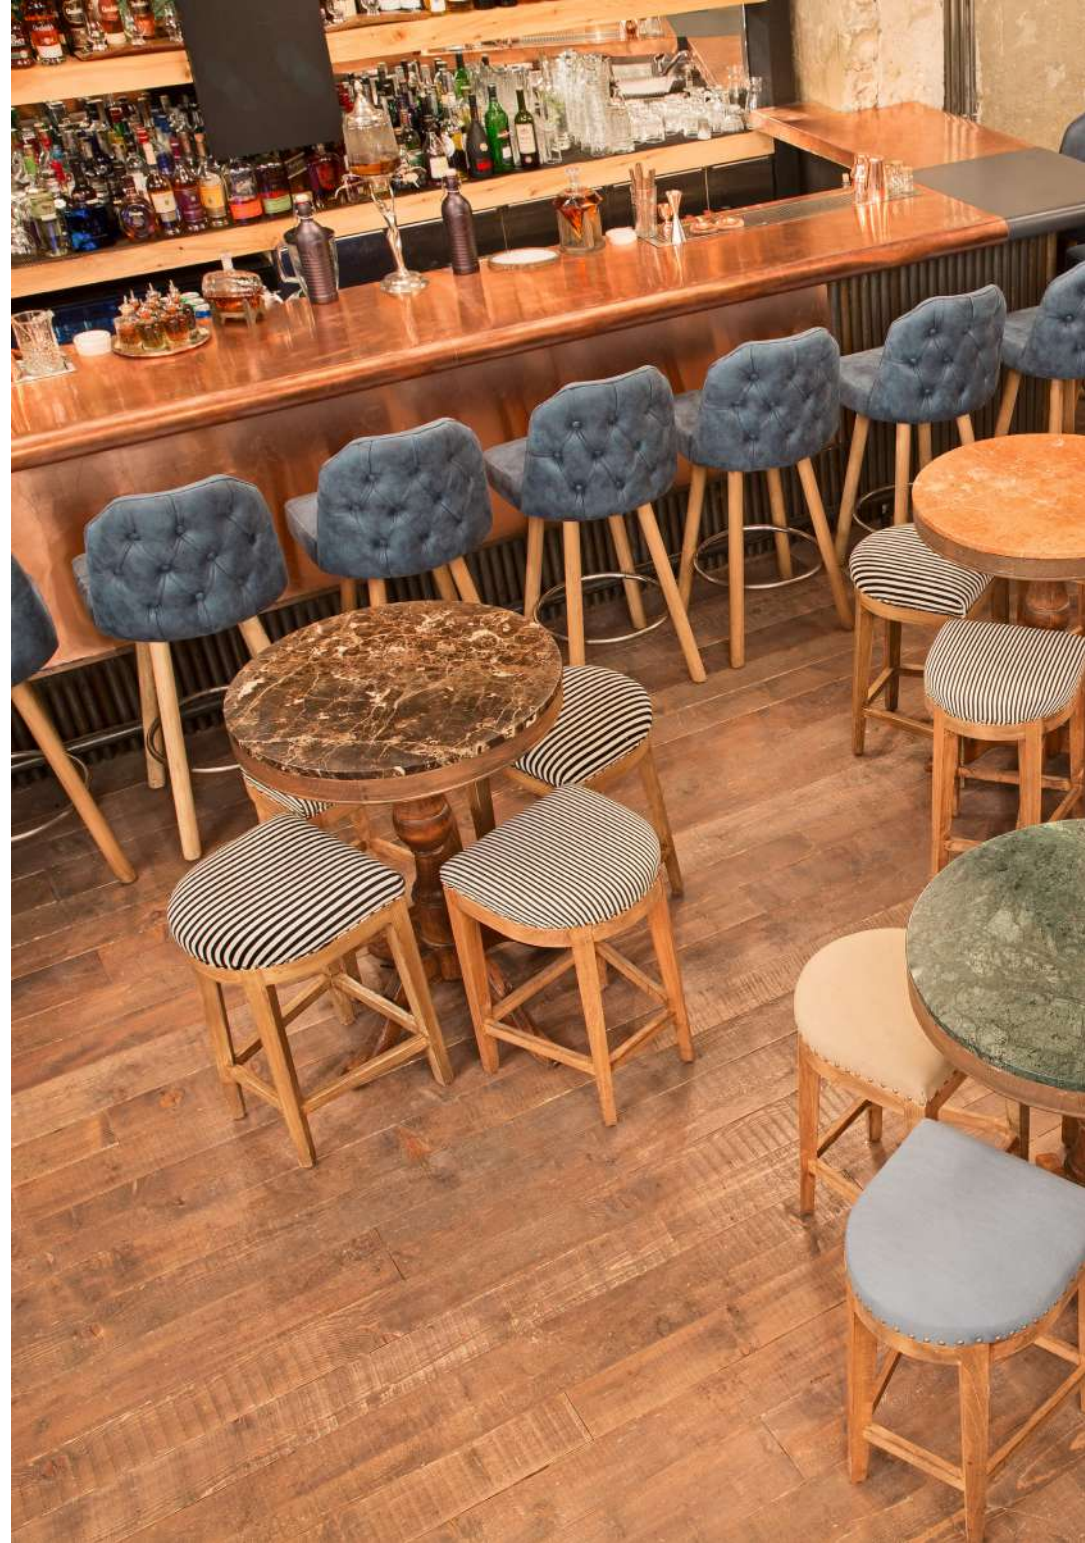

## RECLAIMED WOOD

We have different species of reclaimed wood from **wabu**, our vegan brand! Could be used as wood flooring or to design any customized piece of furniture.

To know more visit [www.getwabu.com](http://www.getwabu.com)

- 1 Reclaimed ELM
- 2 Salvaged Oak

## SPECS OF FLOORS

### LAMINATE FLOORING

The **KITMO** laminate floors are the best in class, recognized for their “closest to natural” feel. Made in 12mm thickness for a more dense and durable laminate.

#### LAMINATE

Top in printed decor layer  
Subcore in high density fiber (HDF)

---

#### LAMINATE

- Look & feel of wood
- Cost effective option
- Scratch and stain resistant
- Kitmo thick laminate floors with foam padding installation are dense and robust

## SPECS OF DECKING

## OUTDOOR DECKING

We understand all the complications in outdoor projects. And we work on that.

The drawings and the technical components are on us. Our engineers provide all the assistance to bring your outdoor deck to life. We strive to make the impossible happen and provide you with a hassle-free experience throughout.

**KITMO** Outdoor Decking is available in Wood, Thermowood and Wood Plastic Composite (WPC).

### OUTDOOR DECKING

Wood/WPC fixated on beam

#### WOOD PLASTIC COMPOSITE (WPC)

- Less expensive option than real wood
- Low maintenance, color fades a little with time
- Color variety (black, gray, white)
- Made from recyclable material

#### SOLIDWOOD

- Authentic & natural
- If properly installed, can last a lifetime
- Create beautiful and enjoyable outdoor space
- Suitable for wet areas (swimming pool, spas, etc)
- To be oiled once a year
